

## **Kit Formats**

The following section contains helpful information about our building kit formats. For assembly details and photos, be sure to check out our construction details.

Extensive thought has gone into making the assembly of our building kits a fun and satisfying experience. Our instruction manual will guide you through the assembly process step by step.

It is very useful and helpful to others, when our customer's send us photo's and talk about the experience they had while assembling their building kits. This allows us to share with others while improving our products, services and instructions.

### **Todd's Shed Kits are available in three convenient formats:**

- 1. Pre-Cut Kit**
- 2. Pre-Assembled Kit**
- 3. Installed Kit**

Each kit contains the essential components you will need to build your structure, with every piece clearly marked. Whether you chose our delivery service or pick up your product, simply move the components to your assembly site, and get building!

If you have selected an Installed Kit, we deliver\*, unload, build and clean up. It will be done and complete, ready for you to enjoy!

**\*Delivery and Installation is only available within a 200 km radius from our showroom and additional charges will be applicable. Distances beyond will be considered.**
